June 10-12, 2011 (State Cup, Presidents Cup (U11-U13) & Challenge Cup Finals)	Lawrence Park, Indianapolis	FC Pride Soccer Club

The bracket structure and the tournament playing format:

When the number of teams being selected for an age group is exactly 12 teams, The Tournament and Cup Committee has determined that the following procedure will be used to bracket and seed the teams:

Each age division will be divided into 3 brackets with 4 teams in each bracket
 The Seeded teams will be placed as shown to the right →
 All teams will participate in a three game round-robin format
 The Bracket winners will advance to finals
 The best 2nd place team will advance for the Wildcard spot
 (If Wildcard is from bracket A, will switch with B with D)

*NOTE: Any age group with more than or less than exactly 12 teams will require the TCC to determine a bracket process suitable for the number of teams. For age groups that remain at 16 teams, the 4 brackets will be filled the same as in the past, 4 teams in 4 brackets, seeded A-D, #1-#4.
